

# IP Fax Messaging Software for Konica Minolta Machines

**FAXport4KM IP Fax Messaging software allows users from their desktop and anywhere on the network- to prepare, preview, send, and receive faxes.**

Users of Konica Minolta C450 Bizhub and C351, now can benefit from direct faxing with FAXport4KM. FAXport4KM enables users to access documents and send outbound faxes directly from a Konica Minolta multifunction machine.

FAXport4KM enables enterprises to deploy an enterprise-wide network fax solution.

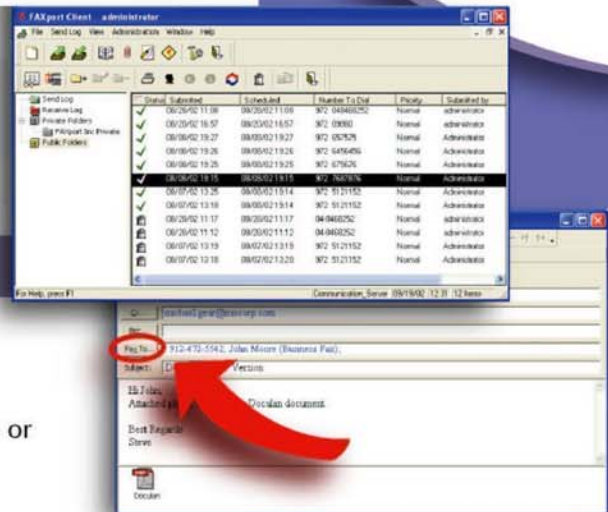

The networked system eliminates the need for stand alone fax machines and dedicated phone lines or modems for individual workstations. FAXport4KM provides also a higher security level to the enterprise network.

One fax line on FAXport4KM server will service all the customer's Konica Minolta multifunction machines.

Faxes sent from a Konica Minolta machine can be viewed and saved on the user's desktop PC.

**FAXport4KM** is a feature-rich technology that provides economical network faxing capabilities and improved productivity.

## FAXport4km Benefits the User Tremendously

### Complete Desktop Integration

Allows users to send and receive faxes directly from e-mail clients or from Windows applications.

### Minimum Need for User Training

Through the addition of a "Fax To" button, sending a fax from Microsoft Outlook is as easy as sending e-mail.

### Multi-platform Capability

Enables faxing from Microsoft Exchange, Lotus Notes/Domino, Citrix WinFrame and MetaFrame, and Microsoft Terminal Server, as well as, Windows XP, NT, and 2000 operating systems.

### Supports legacy platforms

When powered by TRANSport, FAXport4hp enables automatic delivery of mission-critical documents from legacy platforms, such as: Open VMS, Unix / Linux, NT, AS/4000, IBM Mainframes, DOS / Novell.

### Inbound faxing and Routing

Dialed Number ID (DNIS) and DID support, routes incoming faxes directly to the recipients' desktops. This allows the user to get secure faxes anywhere, anytime, any place, and on any device.

### Print Messages & e-mail on remote fax machines

FAXport4hp offers comprehensive printing solutions from wireless devices to any fax machine, when powered by SMSport.

### Fax Broadcasting

Fax broadcasting with mail-merge capabilities is easy to use, fast, and efficient.

*Through integrating FAXport4km with e-mail and the most common applications, FAXport4km becomes a part of everyday activities.*

# IP Fax Messaging Software for Enterprises and Workgroups

For more information please contact your local Rep:

## Centralized control and friendly user management

Provides full reporting on all incoming and outgoing faxes, including senders, recipients, and fax numbers. Users can track in real time their fax status.

## Centralized security and Remote Administration

Integrated with the Corporate LAN security standards, enables administrators to assign users to groups, set access limits to faxes and attachments. Sensitive business transactions may first require approval or be monitored before transmission.

## Firewall Friendly

FAXport4hp has its own IEEE assigned sockets that lets the user configure the firewall.

## APIs for application integration

An extensive set of powerful APIs allow complete integration of fax functionality into almost any Windows or Web-based application.

## Flexible installation & Intuitive Set-up

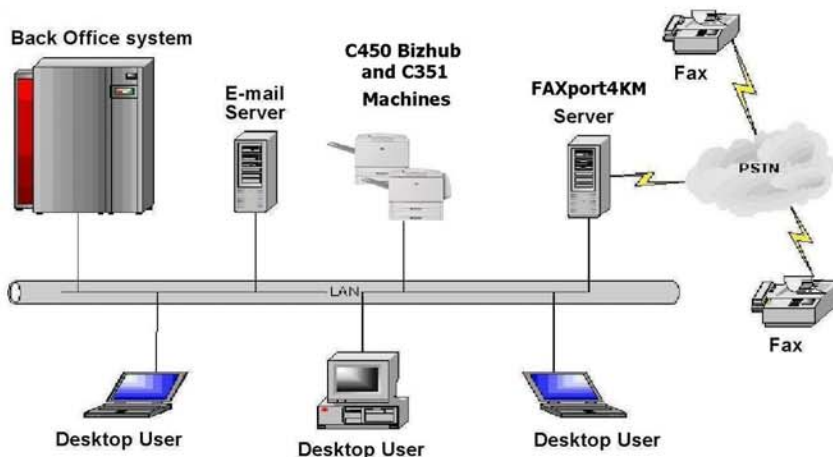

Installs to every desktop on the network in a few easy steps. Once the network manager has installed the FAXport4hp server and Gateway, the users then click on the icon that automatically installs the client software on their desktop.
